

Community Conversations

Join a **Community Conversation** about *What Matters Most* to you?

These education sessions are for members of the community, who are interested in learning more about community supports and services available to people in relation to ageing, loss, dying and grief.

These informal sessions will provide information and resources to help people think about and share what's important to them. Any questions you have about death, dying and grief will be answered in a safe and friendly space.

Topics covered include:

- navigating end-of-life matters
- dying as being a normal part of life
- advance care planning.

We are seeking **expressions of interest** if you would like to host one in your place of work or community, online or face-to-face.
