Palliative Care ECHO®

Free virtual gatherings of health professionals sharing palliative care knowledge. Palliative care specialist teams present on a topic; a primary care professional presents a patient case; all sparking valuable discussions among the health professionals attending nationwide. (Funding: Australian Government Department of Health and Aged Care).

Palliative Aged Care Outcomes Program

PACOP is an evidence-based, best practice model which supports aged care homes (ACHs) to provide optimal palliative and end-of-life care for all residents, their families/carers. PACOP returns reports to drive systematic quality improvement in ACHs and across the residential aged care sector with a national benchmarking program. PACOP is fully funded by the Australian Government Department of Health and Aged Care with participation freely available to Australian residential aged care homes.
